2. Plot summary:

Paulino Gasalla came across a small pack of press clippings and memories. Impressed, he started a thorough research that will bring him to face the meaning of his discovery, to recover his great uncle's memory: Alejandro Porto Leis, last republican Mayor of Serantes in Ferrol, Spain, and also to reveal his unfair end as well as anyone who one were assassinated with him.

THE SECRET OF A FROUXEIRA part of a particular situation: the parallelism between a specific family history with the History of most of the Spanish twentieth century. Two brothers, Alejandro and Eliseo, separated by ideological questions in two sides of the Spanish Civil War, this was the cause of a familiar split that arrives until the present. Only the clearing up of the facts that finished with the life of one of them, would be able to do this family joint again or separated forever.

Relatives that not knew facts until today, have to face the reconciliation or a definite split, as a result of this hard investigation, against suspicions and the incomprehension of many.

In the same way, relatives of the other three disappeared (Modesto of Rio, Avelino Landeira and Jesus Miño) face seventy suffering years searching the corpses of these men. Through the documentary, parallel ways of these four families converge, contributing a new perspective to the way of telling so close histories and so forgotten.

4. Director's note.

This documentary is part of the Historic Memory, because of facts said and of dates that are recalled, but above all is an up-to-date chronicle.

We began following Paulino Gasalla's investigation of his relative Alejandro Porto Leis, the last republican Mayor of Serantes in Ferrol, Spain. He was killed with three neighbours in 1938. Events as this, until more than 70 years, they are still affecting to many families.

"We do not claim revenge, we just want to know the truth" these Manuel Landeira's words define so well the soul of this documentary, the generosity of this persons. We have recovered with them some keys of the Spanish Civil War and its consequences nowadays. In this way we were drawing a black chapter of the History that will not close up until a fair treatment was given to so many victims of the Francoism, of the dictatorship.

After Franco's death we enjoy more than 30 years of democratically chosen governments. They have not made enough for close one of the worse pages of our recent History with dignity. It's difficult to think about democratic transition while this question has not been honestly solved. After too many years of lies and comments, it is essential the recognition to those people that acted defending his ideas and for the freedom.

We want to thank to families Porto, Landeira, Miño and Del Río for leaving this memory testimony and very so hard feelings and for helping us to reveal "The Secret of A Frouxeira".

This documentary is the result of one more than work year and a middle, and of an enormous personal implication, accompanied always by the essential work developed by Sandra García Rey and an excellent professional team of crew and friends.

CARLOS ETCHEVERRÍA. I pasado mércores día 20 se estreñ, en el Teatro Rosalía de Castro de A Coruña, el documental de Eaf producións cuyo título encabeza este artículo...

En esta ocasión, reconstruye la fantástica historia de un personaje, el alcalde de Serantes Alejandro Porto Leis, asesinado durante la represión franquista en 1938...

Desarrolla la macabra historia en formato parecido al empleado en otras obras (exaltación de personajes ilustres como Isaac Díaz Pardo o Manuel Gurguía...

La figura de Alejandro Porto y sus compañeros de infortunio sirve a José Abad para asociarlos de forma simbólica al inmenso drama colectivo sufrido por la población de Galicia tras el golpe militar de 1936.

El film es sobrecogedor y, consciente de ello, su autor introduce el bálsamo consolador de un recuento de las cuatro familias que sufrieron tan desdichado suceso...

Esta penosa circunstancia de considerar a Porto Leis como causante indirecto de la muerte de sus compañeros, al haberse sacado la guardia civil mediante torturas los nombres de los abnegados protectores que le dieron cobijo...

Este documental refiere con ecuanimidad hechos dolorosos, sin excitar al odio ni a la venganza. Por el contrario, envuelve la afrez con manito de ternura y compasión.

Es una simple lección histórica que contribuye a dar a conocer un pasado hasta ahora envuelto en el misterio de la tergiversación y la mentira.

CULTURA. Quen teme a memoria histórica?

'O segredo da Frouxeira' amosa como a campaña de descrédito do franquismo mantivo afrontadas a varias familias ata hoxe

"A historia que contamos aquí vén dos tempos da Guerra Civil, pero forma parte do presente", asegura Xosé Abad, director do documental 'O segredo da Frouxeira'.

Tras as mortes, as autoridades iniciaron unha campaña de descrédito para "matar tamén a memoria despois de matar o corpo", como é Abad, e tiveron o éxito de causar enfrotamentos dentro da propia familia Porto Leis...

Como é Manuel Landeira, irmán menor de Avelino e unha das testemuñas d'O segredo da Frouxeira, "non se trata de reabrir as feridas, porque en realidade as feridas nunca chegaron a pecharse, trátase de coñecer e verdes, sen resarcimentos, "sen facer dano a ningun".
